

Cleaner Sanitiser and Data Sheet

Manufacturers Name: Odarid NZ Ltd ,

Active Ingredients

LONZA FMB 1210-8 Antimicrobial
LONZA FMB AO8 Octyl Dimethyl Amine Oxide
Sodium Hydroxide
EDTA Acid
Linear Alcohol Ethoxylate 9-12
Fragrance Luxelle
Dye

PH Concentrate/Use Dilution 7.2-8.2

Hard Water 400PPM

KEEP AWAY FROM CHILDREN

Product Information

Sanitiser and Cleaner is a one step disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal and inhibits odours forming when used as directed. It is also PH neutral and does not upset the polish on the floor.

The product contains a single chain quaternary ammonium chloride and a dual chain quaternary ammonium chloride (Fourth generation) giving efficient viral and bacterial elimination properties

Sanitiser and Cleaner is effective in water up to 400ppm hardness in the presence of 5% serum contamination.

Sanitiser and Cleaner formulation is registered with EPA 47371-131 and is tested on a range of viruses and bacteria.

Directions

To disinfect concrete and wooden floor surfaces add 80 mls to 5 litres of fresh water (60 - 1) and apply by dousing affected area.

Dilution rate is 60 parts of water to 1 part of **Sanitiser and Cleaner** (World Health Authority recommends all sanitising products must be left wet on the surface for 10 mins to ensure a maximum bacteria and virus kill.

Prepare a fresh solution every application

Anti-bacterial Spray

For spraying other surfaces such as tabletops, walls, dilute at 60 to 1 with water and spray directly onto affected surface.

Leave wet for 60 seconds before wiping dry with a clean cloth.

For any specific requirement please contact Odarid NZ on 09 527 0029

Special Protection Information

HARMFUL IF INGESTED

KEEP AWAY FROM CHILDREN

In case of eye contact: Immediately flush eyes with plenty of water for at least 15 minutes while holding eyelids apart. Seek urgent medical attention

In case of inhalation: Move patient to fresh air and seek medical attention if condition does not improve.

In case of Ingestion: Drink COPIUS glass of water. Do not induce vomiting. Get urgent medical attention.

Never give anything by mouth to an unconscious person.

Note to physician

Probable mucosal damage may contraindicate the use of gastric lavage.
